EDUCATION

Toronto Metropolitan University

Toronto, ON

Bachelor of Engineering, Computer Engineering

2023–2028

- **Relevant Coursework:** Digital Systems, Advanced Algorithms, Object Oriented Programming, Operating Systems, Signals and Systems

EXPERIENCE

Vice President of Events

Aug. 2024 – Present

Vision4All TMU

Toronto, ON

- Led **campus-wide fundraising and awareness initiatives** serving 200+ students, managing event logistics, scheduling, and execution across multiple large-scale initiatives
- Managed **budgets and fundraising performance tracking** for charity campaigns, using Excel dashboards, Pivot Tables, and financial planning sheets to monitor campaign progress
- Worked with executive team members to coordinate planning, improve internal workflows, and support smoother execution of organization-wide initiatives

Technical Systems Intern

Oct. 2025 – Present

Air Hawk Solutions

Oshawa, ON

- Worked with a **20+ engineer cross-functional team** developing autonomous drone systems and contributing to software-side technical planning and testing decisions
- Built **Python-based automation pipelines** processing **1,000+ LiDAR sensor readings per second**, helping improve internal drone testing and validation workflows
- Developed reporting and monitoring tools that converted raw testing data into performance insights, helping engineers identify issues faster during system testing

Competitions Organizer

May 2025 – Present

MIST Toronto

Toronto, ON

- Designed Excel and Google Sheets systems for scheduling, scoring, and event logistics supporting **500+ participants and 100+ judges** during large-scale competitions
- Built budget tracking sheets and automated spreadsheet formulas to organize competition operations and support smoother coordination across event teams
- Worked directly with judges and volunteers to resolve scheduling conflicts in real time and maintain smooth event execution under tight deadlines

Fundraising Organizer

Jun. 2026 – Jul. 2026

Durham Employment and Newcomer Centre

Ajax, ON

- Built **Excel-based reporting systems** tracking fundraising performance across **30+ donor and sponsor relationships**, improving visibility across active fundraising campaigns
- Analyzed donor and campaign data using spreadsheets and dashboards to identify fundraising trends and support sponsorship outreach planning
- Prepared reports, organized campaign documentation, and tracked fundraising progress used by internal teams to monitor campaign performance

Integration Camp Counsellor

May 2025 – Aug. 2025

City of Pickering

Pickering, ON

- Coordinated daily schedules and activity planning for youth programs while adapting plans based on participant needs and changing day-to-day priorities

TECHNICAL PROJECTS

Simple General-Purpose Processor | VHDL, Quartus II, FPGA, Digital Systems

- Worked with a partner to design and integrate a processor architecture containing registers, FSM control logic, decoders, and an **Arithmetic Logic Unit (ALU)**
- Implemented and tested **9+ arithmetic and logic operations** in VHDL, validating functionality through simulation testing and FPGA deployment

TECHNICAL SKILLS

Project Management: Project Tracking, Scheduling, Budget Management, Workflow Management, Stakeholder Communication, Cross-Functional Collaboration

Data Analysis & Reporting: Microsoft Excel (Pivot Tables, VLOOKUP/XLOOKUP, Dashboards, Forecasting), Google Sheets, PowerPoint, Data Visualization

Programming Languages: Python, Java, C, C++, JavaScript/TypeScript

Technical Tools: Process Automation, Technical Documentation, Data Processing, Performance Monitoring

Professional Skills: Process Improvement, Operational Planning, Written Communication, Team Collaboration
